2nd Taranta F2F at MAX IV Laboratory in Lund (Sweden)

29 May 2023 - 30 May 2023

Scientific Programme

Day 1 (Development Track) delves into the technical aspects of Taranta, including current development status, installation, customization, and system integration. Learn from experts and gain hands-on coding experience.

Day 2 (User Case Focus Track) shifts towards real-world applications, exploring how to reach new use case for specific experimental setups. Attend case studies showcasing successful implementations, participate in interactive Q&A sessions, and brainstorm solutions to your unique challenges.
